karen c. timberlake - chemistry an introduction to general, organic, and biological chemistry (12th edition) (2014, prentice hall).pdf | docdroid

free download general, organic and biological chemistry: structures of life (6th ed.) by karen timberlake

free download general, organic and biological chemistry: structures of life (6th edition) written by karen timberlake in pdf.

as per writer, "welcome to the sixth edition of general, organic, and biological chemistry, structures of life. this chemistry text was written and designed to help you prepare for a career in a health-related profession, such as nursing, dietetics, respiratory therapy, and environmental and agricultural science. this text assumes no prior knowledge of chemistry. my main objective in writing this text is to make the study of chemistry an engaging and positive experience for you by relating the structure and behavior of matter to its role in health and the environment. this new edition introduces more problem-solving strategies, more problem-solving guides, new analyze the problem with connect features, new try it first and engage features, conceptual and challenge problems, and new sets of combined problems.

it is my goal to help you become a critical thinker by understanding scientific concepts that will form a basis for making important decisions about issues concerning health and the environment. thus, i have utilized materials that

- help you to learn and enjoy chemistry
- relate chemistry to careers that may interest you
- develop problem-solving skills that lead to your success in chemistry
- promote learning and success in chemistry"

contents

- chemistry in our lives
- chemistry and measurements
- matter and energy
- atoms and elements
- nuclear chemistry
- ionic and molecular compounds
- chemical reactions and quantities
- gases
- solutions
- reaction rates and chemical equilibrium
- acids and bases
- introduction to organic chemistry: hydrocarbons
- alcohols, phenols, thiols, and ethers
- aldehydes and ketones
- carbohydrates
- carboxylic acids and esters
- lipids
- amines and amides
- amino acids and proteins
- enzymes and vitamins
- nucleic acids and protein synthesis
- metabolic pathways for carbohydrates
- metabolic and energy production
- metabolic pathways for lipids and amino acids
